A Day for Women Leaders to Connect & Grow

92NY
women. **POWER**
SUMMIT

The Women inPower Summit builds on a decade-strong fellowship that has helped nearly 300 women advance their careers and communities through mentorship, skill-building, and an enduring peer network.

At a time when connection, solidarity, and shared purpose matter more than ever, Women inPower is bringing together the nation's top business leaders and changemakers for a day of expert-led panels, interactive workshops, and intentional, lasting connection.

Women inPower Summit Content: Networking, Skill-Building, & Mentorship

92NY
women.**POWER**
SUMMIT

An adaptation of the successful Women inPower Fellowship model, the sessions will address the most urgent opportunities and challenges for women as they rise to the highest levels of leadership.

Sessions are designed to encourage every participant to form at least one meaningful, new connection who will support their career.

Expert facilitators will lead workshops focused on mentorship, skill-building, and peer networking — the three pillars of Women inPower — exploring the following themes:

Freedom as Power: How do we achieve personal and professional autonomy? Explore how self-advocacy, an abundance mindset, and financial proficiency can help us overcome barriers.

Community as Power: Can we leverage our collective strength to drive societal change? Learn how to navigate and subvert entrenched systems through inclusive leadership.

Change as Power: What can we do as leaders to inspire institutional and personal transformation? Develop a collective vision for leveraging change in work and life.

Sponsorship Opportunities
